

## How to Use the Media Server Feature

The Media Server feature allows you to share the music, videos and photos on your USB drive or mobile hard disk drive that's connected to the router, to game consoles or media players.

### HOW TO SET UP:

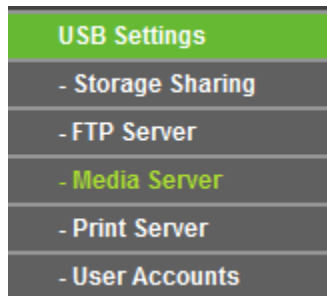

Plug the USB storage into the USB port of the TP-LINK router and wait until the USB LED is solid green.

You can setup the media server by the following steps:

**Step 1** Open a web browser (IE/Chrome/Firefox/Safari), type **tplinklogin.net** in the address bar, and then press Enter button.

**Step 2** Type the username and password in the login page, the default username and password are both **admin** (in lower case), then click OK to log into the router, Click **USB Settings** -> **Media Server** on the left side menu.

**Step 3** Before configuring the Media Server, the USB storage device must be recognized first. Click **Start** button.

**Media Server Setting**

Server Name: **TP-LINK\_BE4944**  
 Server Status: **Stopped**

---

Auto-scan every

Name	File System	Folder	Delete

**Step 4** Click **Add share folder** button. Choose the folders you want to share and click **Save**.

Auto-scan every

Name	File System

**Add New Folder**

Display Name:   
 Partition:  Share entire partition  
 Folder Location:

---

Select	Folder
<input type="text" value="upper"/>	
<input checked="" type="radio"/>	<a href="#">Music</a>
<input type="radio"/>	<a href="#">Photo</a>
<input type="radio"/>	<a href="#">Video</a>

---

Current No.  page

**Step 5** Your shared folders will be listed on the Media Server page.

Auto-scan every

Name	File System	Folder	Delete
folder1	NTFS	/Music	<a href="#">Delete</a>
